

Magistrales standardisées au Québec

Notice to patient of change in medication formulation

Version : MSQ-ACEN-20221102

chusj.org/magistralesqc

Date : _____

To the attention of : _____

The formulation of the medication you are currently taking has changed.

Medication : _____

Before :

Concentration : _____ Dose : _____ Volume : _____

From now on:

Concentration : _____ Dose : _____ Volume : _____

New storage temperature: _____

Your pharmacist will instruct you on the dosage and storage conditions of the new formulation. The reason for this change is that Québec pharmacists are currently uniformizing some medication formulations.

Your pharmacist will inform the prescriber of this change as well as other professionals who may be involved in your care. Please make sure to remind them of the change at your next appointment.

If you have any questions or concerns, do not hesitate to talk to your pharmacist.

Pharmacist : _____ Phone : _____
